

BENEFITS REVOLUTION

WHO WE ARE

Re:benefit is the first innovative platform for flexible employee benefits on the Bulgarian market, and since 2023, we have been offering our services internationally as well.

We help employers enhance their talent by offering exceptional benefits packages, while also reducing administrative burden through automated processes. This increases employee engagement in professional development and fosters team spirit within their organization.

Through our platform, we give employees the freedom to choose the additional benefits they wish to receive, based on their actual needs and expectations at any given moment. We make it possible to implement an effective approach to a unique employee benefits package, providing full control over costs and visibility into each employee's activity.

We at **Re:benefit** believe we are making a significant step toward the future of human resources management by providing conveniences and privileges for employees that help companies become leading employers.

Full administration of the entire process, with a continuously updated portfolio of providers.

Monthly reports on employee preferences.

Flexible budget management for benefits.

Usage and expense reports.

Access to a loyalty program with over 100 exclusive discounts.

Consultancy on the status, innovations, and operational landscape of the benefits market in Bulgaria.

Consultancy on motivation, employee satisfaction, and talent retention.

Consultancy for optimizing and controlling costs for additional benefits.

WHO TRUSTS US

Lili Koevska

HR LEAD

Following an internal employee opinion and satisfaction survey, we identified the need to give our employees the opportunity to choose their own employee benefits according to their interests and desires. Therefore we decided to implement flexible benefits and this was done quickly and efficiently, with the full cooperation and support from Re:benefit. The feedback received from our employees about flexible benefits is extremely positive.

Yana Papardova

HR MANAGER

On our way to becoming a top employer, we faced the challenge of addressing our employees' individual needs. On this journey, Re:benefit has become one of the few tools to offer us flexibility and variety of choice in the area of additional benefits for everyone who is part of the organization.

Stanka Mladenova

ADMINISTRATIVE DIRECTOR

Once you hear about Re:benefit, then standard benefits and employee recognition projects hardly work anymore. I know it sounds incredible to satisfy the wishes of all employees, but that's exactly what happened. We are happy that Paynetics is one of Re:benefit's early adopters and among the first employers in Bulgaria to introduce a next-generation solution for happy workforce and benefits automation. We express our sincere appreciation for the exceptional business partnership we have created between our two companies.

Will you join the revolution of talent management?
